Quality Policy Statement (Incorporating Certification Policy)

In order to take seriously the responsibility of providing an internationally recognized and accepted certification body (ExCB) to meet the requirements of the clients of the ExCB, legal administrative agencies and the accreditation/international organizations, and to carry out quality evaluation of Ex electrical products and Ex manufacturers; the General Manager of CNEX-Global B.V. gives the following quality policy statement:

1 Quality policy of the ExCB

Provide an impartial certification system incorporating: Justice and Precision; Scientific and Reliable; High quality and Efficiency; Continual improvement

2 Management objectives

- a) We work strictly in line with relevant rules, standards and regulations such as IECEx 02, EN ISO/IEC 17065 and the ATEX Directive 2014/34/EU, maintain and perfect the management system, and improve our service quality;
- b) Our evaluation work shall be done strictly in accordance with relevant rules, standards and regulations;
- c) We follow the principle that quality is the foundation and the client is first, provide high-quality service to clients (see management commitment);
- d) We maintain the applicability, validity, integrity and impartiality of the quality system for the ExCB, to ensure the objectivity, correctness and quality of all evaluations and certification decisions with respect to product certifications as well as quality management system assessments;
- e) We ensure that all of the personnel in the ExCB are trained in and understand the related ExCB documents and follow them in performing their work;
- f) We keep on improving personal ability and technical competence of staff;
- g) We follow the RSP principle: respect our clients, serve honestly and perfect work;
- h) We will satisfy the requirements of clients, administrative and accreditation organizations.
- i) We establish annual objectives to be achieved by all staff.

Date: 16 January 2020

Mr. Wang Jun

General Manager of CNEX-Global B.V.
